- Advanced Spanish
- Basic Japanese
- Basic German

SOFT SKILLS

- Effective communication
- Problem-solving
- Team collaboration
- Adaptability
- Critical thinking
- Leadership

WORK REFERENCE

- Available upon request

Junior Software Engineer

LIGIA REZENDE HIRATA

PROFILE

Junior Software Developer with 1+ year of experience, based in Brazil, and looking for a remote position. Having lived in four countries, I adapt quickly to new challenges and environments, making me a fast learner. With strong communication skills, I collaborate effectively with diverse teams, and I’m always seeking opportunities to innovate and grow in dynamic environments.

EDUCATION

Jan 2015 - Jan 2020: Federal University of Rio Grande (FURG), **BS in Biochemical Engineering with minor in Software Engineering** - Graduated with high honors (grade above 8.0/ GPA 3.0)

EXPERIENCE

Junior Backend Developer at 55PBX Virtual PABX | Oct 2024 - Present | São Paulo, Brazil (In-Person)

- Maintain and refactor a Cloud PBX system using Node.js, React, Angular, MySQL, and MongoDB to fix bugs and improve performance.
- Collaborate in an Agile team using Scrum, Jira, and Bitbucket and contribute to daily development workflows.
- Test and integrate APIs with Postman, write technical documentation, and resolve bugs to enhance system reliability and user experience.

Freelancer Web Developer | Aug 2024 - Present | São Paulo, Brazil (Remote)

- Developing, designing, and deploying websites for clients;
- Creating an intuitive and visually appealing user interface to client specifications;
- Managing deployment and providing ongoing support to maintain the site’s responsiveness and efficiency.

Junior Software Developer at JaxTHRIVE | Aug 2022 - Jul 2023 | Florida, USA (Remote)

- Assisted with a project for a non-profit organization that connects volunteers and other non-profits with shared missions;
- Helped with the design and implementation of the web UI;
- Supported the back-end integration with Microsoft Azure services.

Laboratory Assistant at BioCen Do Brasil | Jul 2020 - Oct 2020 | São Paulo, Brazil

- Conducted physical, chemical and microbiological testing and quality control procedures;
- Collaborated with cross-functional teams to troubleshoot technical issues;
- Leveraged analytical thinking and attention to detail for process improvement.

Laboratory Researcher at LEB & LAFQAT (FURG) | Jan 2017 - Dec 2019 | Rio Grande do Sul, Brazil

- Conducted physical, chemical, and microbiological analyses, alongside computational analyses using ArgusLab.
- Assessed the nanotechnology potential of nanoencapsulation and analyzed molecular interactions between enzymes and molecules through computational algorithms.
